WELCOME TO THE UNIVERSITY LIBRARIES—
THE HEART OF PENN STATE

As you begin your journey of experiencing and creating scholarship at Penn State, you can count on the Libraries to help you navigate an abundance of information and to give you a base to pursue a wide-array of intellectual, social, and cultural endeavors.

An exciting new service that began last year is ScholarSphere, offering a secure location to save and preserve digital files related to your research, including images, text, audio, and video, and it has flexible access, visibility, and permission levels for sharing your work. Imagine building a personal portfolio of capstone projects, award-winning essays, group project work, presentation slides, and more in one safe location that travels with you. (See page 20.)

Another new service is a Research Hub that provides consolidated high-level reference and referral services for faculty and students in business, education, and the behavioral and social sciences. (See page 19.)

This guide will help you access our collection of more than 6.3 million books and 315,000 E-books, 171,706 online full-text journals, and 634 databases at all Penn State locations.

We offer superior expertise, collections, services, technologies, and other resources to meet your needs throughout your journey. Feed your mind at one of 36 libraries or virtually 24/7, from home, residence hall, office, or the other side of the world at www.libraries.psu.edu. Come in, call, chat, e-mail, or text us. We welcome hearing from you.

Getting Started Using Libraries Resources

Get Help from Our Librarians
Discover friendly librarians, familiar with your information needs and ready to help you with your studies and research needs.

Begin with the Libraries Home Page
Go to www.libraries.psu.edu
LionSearch finds multiple library resources—books, articles, newspapers, databases and more—from a single search box. Entering a search term in LionSearch returns, nearly instantaneously, a list of relevant physical and digital materials from the Libraries’ collections.

Find:
- Books at Penn State and elsewhere, plus E-books
- Resources by subject
- Articles (many with full text)—online
- Databases for locating journal articles
- Other materials, newspapers, music, more
- Online reference shelf, with dictionaries, encyclopedias, and more
- Web sites—quality content recommended by librarians
- Library hours and other information about the Libraries
- Plus—access your library account and use interlibrary loan borrowing

Loaded with useful information, the Libraries’ home page gives you links to do your library work and offers special services customized for students, faculty, staff, and visitors.

With your Penn State Access ID, you can use LionSearch, the catalog, and online research tools from computers in the libraries, computer labs, and from your laptop or home computer.

Visiting Scholars and Researchers
For special provisions available to visiting scholars and researchers, contact Commons Services, Pattee Library, first floor, 814-865-5429.

On-Campus Wireless Access
Penn State uses the Wireless 2.0 Service.
To get connected to the Penn State Wireless 2.0 Service, you’ll need:
- A Penn State Access Account.
- A laptop with an 802.11 compatible wireless network card.
For more information, see wireless.psu.edu
Information for Visitor Wireless is available at wireless.psu.edu/visitorwireless.html
Off-Campus Access to Databases and Services

Both wired or wireless computer access is available off campus. First, download and install Penn State’s VPN Client. Though many library databases are available through the library’s proxy server without using the VPN client, use of the client is strongly recommended because it provides a secure encrypted network connection and comprehensive access to resources. Consult the “Penn State Anywhere” Web page at aset.its.psu.edu/vpn/ for more information and to download the software.

After installing the VPN client, restart your computer and look for the program named “Cisco Systems VPN Client.” Open the VPN client to see a list of connection options. Two connection options provide off-campus access via a third party Internet Service Provider (or ISP):

- The “ISP to PSU” connection is the recommended first choice for access to most library databases and services.
- If you encounter messages such as “Access denied” or “You are not authorized to view this page,” then select the “LIAS-VPN” connection instead. This connection assigns your computer a temporary Penn State IP that will last throughout your session, even if you follow external links from within one database to another. You may occasionally need to wait for a connection, since there are fewer LIAS-VPN connections available.

How to Find Books, Articles, Media, and More

LionSearch at psu.summon.serialssolutions.com is a search engine that provides fast, simple access to relevant, scholarly material in the Libraries’ collection, with an integrated search of The CAT, the online catalog and Penn State databases and e-journals, e-books, and local collections.

Finding books and more:

To begin, type your search terms into the single search box. Use the options on the left side of the search results to limit the search. To see the availability of an item, click on its title in the results list.

To locate an item, write down the:

- library name and floor location shown in The CAT record
- call number (e.g., PS3619.E26 L68 2002)
- Or click the “I Want It” button to get a book delivered to a convenient library location or from a library location not at your campus. (Many books arrive within 2 days or less.)

Wireless Network Access is available at all Penn State Libraries locations. Inquire at any service desk.
Search The CAT directly:
The CAT, the Libraries’ online catalog, is another way to search Penn State’s collections of books, media, and more. Search it directly at cat.libraries.psu.edu, or click on The CAT link on the Libraries’ homepage.

Other Features in The CAT:

• **Activate My Favorites** allows library users to list favorite subjects or authors and receive monthly e-mail notification when related new materials are added.
• **Course Reserves** permits searches of reserved materials by instructor, course number, and course name.
• **Materials Not at Penn State** provides a link to options for borrowing materials from other institutions and organizations.
• **My Library Account** permits online renewal of materials and provides a list of borrowed library materials, outstanding fees, and more.
• **I Want It** button requests checked out materials or material from other Penn State campuses, plus faculty and staff at University Park can request delivery to campus offices.

Finding articles:

**LionSearch** at psu.summon.serialssolutions.com indexes and searches across most of the Libraries’ databases.

• To begin, type your search terms into the single search box. On the results page, you can refine your search to Journal Articles and you can also limit this result set to “items with full-text online” and “articles from scholarly publications, including peer-review.”
• Use LionSearch’s **Advanced Search** or the **Citation Linker** at resources.libraries.psu.edu/resources/citationlinker if you have a citation from a specific article or journal.
• Get more information about Finding Articles at www.libraries.psu.edu/psul/researchguides/findarticles.html.

Please do NOT reshelve books. Place on nearby carrels or tables. Staff will ensure they are reshelved in the proper location.
Alumni Library

Visit the Alumni Library at http://alumni.libraries.psu.edu for a lifetime connection to the University Libraries.

Offering rich resources of interest to alumni and others, including travel tools, career help, health news, genealogy searches, and more. In partnership with the Alumni Association, this Web site offers members access to additional features, including Ebsco Alumni Complete, ProQuest ABI/Inform, JSTOR, Penn State Lore, and more. To join the Alumni Association, go to www.alumni.psu.edu/membership/join/

Libraries Annexes

www.libraries.psu.edu/psul/annex.html
Libraries annexes are off-site shelving facilities where materials are stored to relieve congestion in the Libraries. Staff retrieve annexed collections each weekday. Materials are generally available at the pick up location within two working days of the request.

Because the annexes are not open to the public, borrowers must use the “I Want It” feature in The CAT, the online catalog, to request books or ILLiad, the interlibrary loan application, to request journal articles. A digital copy will be delivered within two working days to your ILLiad account in most instances.

You Can Help Protect Libraries Resources

Each year in the University Libraries, the loss of books and periodicals from theft and mutilation seriously undermines free access to library materials. Damaged and stolen materials are expensive to replace and ultimately cost us all. Loss of irreplaceable items results in permanent collection damage, and users experience extreme frustration when needed materials are lost or damaged. Despite the availability of photocopiers throughout the Libraries, a generous loan period, and punishment for violators, loss and damage persist. You can help protect library materials by reporting to Libraries staff any actions that could threaten our collections.

You Can Help Preserve Books

The University Libraries’ resources belong to all users, present and future, and it is up to everyone to use the collections with care. You can help the Libraries’ preservation efforts by observing the following:

• Handle books gently, especially if the paper is yellow and brittle or if the binding is weak.

• **Do not write or underline in library books.**

• Do not cut or remove pages or portions of pages from library materials.

• Do not fold pages, use paper clips, or insert bulky materials inside books.

• Gently remove all self-stick removable notes before returning.

• Do not eat or drink while using library materials—spills can stain or damage items; crumbs attract insects that eat book paper, covers, and glue.

• Do not attempt to repair library materials yourself. Bring the damaged material to any service desk.

• Carefully remove books from shelves by grasping the volume at the middle of the spine. Avoid pulling a book from the shelf by the top edge of the spine.

• When photocopying, avoid forcing the volume flat—pressing too strenuously on the spine of the book can break the binding.

• At home, keep library materials safe. Avoid placing books in sunlight—do not leave them on radiators or windowsills. Protect books from rain and snow. Refrain from using library materials while eating or bathing. Keep books out of reach of pets.

The University Libraries’ **CODE OF CONDUCT** is available at [www.libraries.psu.edu/psul/policies/ulad04.html](http://www.libraries.psu.edu/psul/policies/ulad04.html)

Cell Phone Use in the Libraries

As a courtesy to other library users, patrons are reminded that cell phone use is limited to designated cell phone zones. These areas include basement corridors of Pattee Library and Paterno Library; first level corridor and lobby in both libraries; lounge areas on floors 2 to 4, as well as the floor 5 elevator lobby in Paterno Library; and west Pattee Library stairwells. Branch, campus, and college libraries’ cell phone zones are in the building lobbies, outside the libraries.
